

Set Default Programs

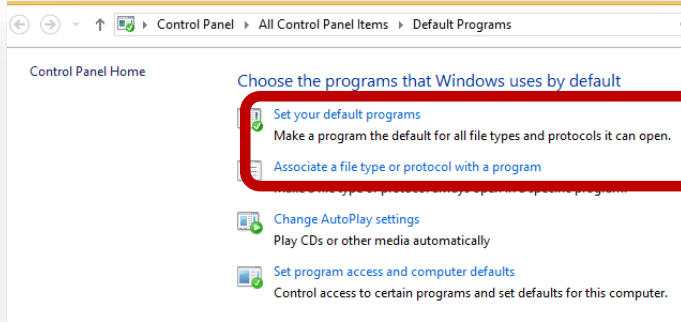

From the Start Menu, click on the **Search** magnifying glass.

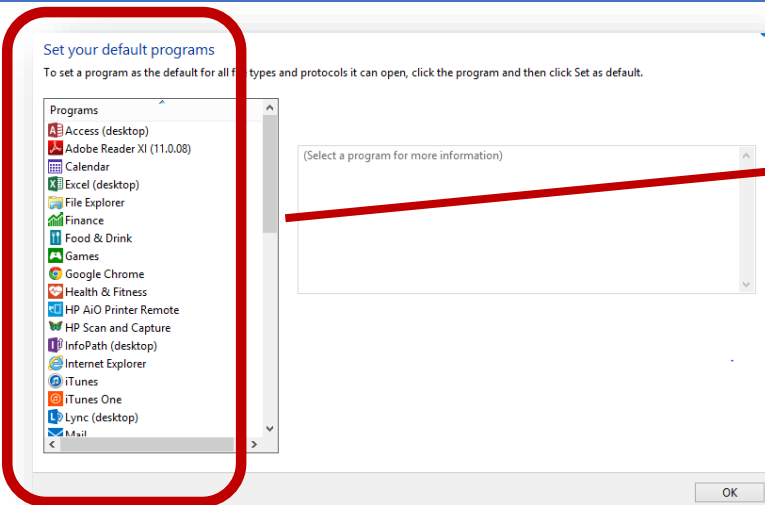

Type in **“default”**

Select **Default Programs**

Click on
“Set your default programs”.

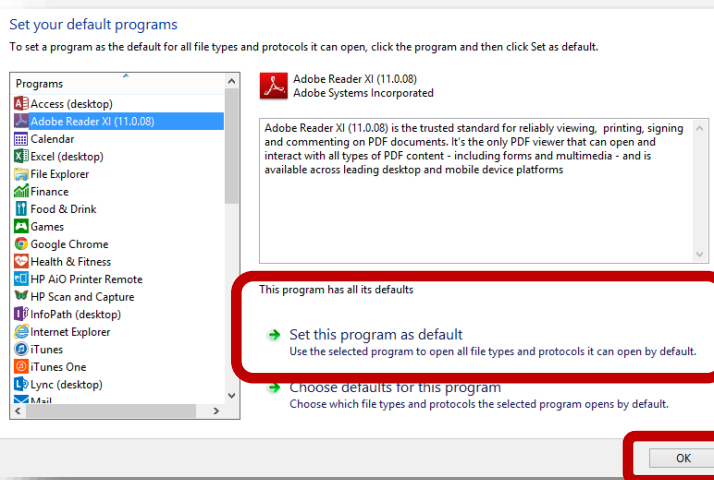

Select your preferred default programs.

Scroll down to see all programs.

Suggested programs to make your default are:

- **Adobe Reader XI**
- **Outlook (desktop)**
- Preferred Browser
- VLC Media Player
- Windows Photo Viewer

Select each program one at a time.

Next, click on
Set this program as default.

Finally, click on
OK.

Repeat process for additional preferred defaults.
