

## SHAC Minutes

12/7/2016

Lunch

Introduction of new members

Discussion

We discussed ways to communicate to parents about cyber safety. It was decided that there is not one best way. You need to communicate through student's folders, social media, cisd website, each campus' website and mail outs. Information gets home if the child is in elementary but the older the child gets the less information gets home. Praise to the CHS counselors for doing a great job in communicating with parents.

We discussed the need to begin teaching students and parents about cyber safety at an earlier age, even elementary age students.

The THINK acronym will be the information that we want to be sent to parents, students and posted around school. THINK stands for T-is it true? H-is it helpful? I-Is it inspiring? N-Is it necessary? K-Is it Kind?

New videos will be sent to each secondary school principal in January for them to show to their student's during home room on cyber safety. It was mentioned testimony for students speaks to students.

Next meeting will be February 8, 2017
